

TPU List of Engineering Bulletins

Revised 1 June 2000

1. EB268, *Starting and Stopping the Time Processor Unit Clock Using the Background Debug Mode*. By Sharon Darley, 1998.
2. EB274, *Generating Interrupts on the Time Processor Unit*. By Sharon Darley, 1999.
3. EB277, *Coherency in the Time Processor Unit (TPU)*. By Sharon Darley, 1998.
4. EB279, *Low Output Levels on Output Pins*. By Charles Melear, 1998.
5. EB280, *Programming the Channel Control Registers on the Time Processor Unit*. By Sharon Darley, 1999.
6. EB282, *Using the Output Compare Function on the Time Processor Unit and an Example that Includes PPWA*. By Sharon Darley, 1999.
